

One Day Workshop On "Renewable Energy" 19

Report

India stands fourth globally in renewable energy installed capacity (including large hydro) fourth in wind power capacity and fourth in solar power capacity (as per REN21 renewable 2022 global status report). A total of 14.21 GW of renewable energy capacity was added during the period Jan to Oct. The popular renewable energy sources currently are solar energy, wind energy, hydro energy, tidal energy, geothermal energy, biomass energy. So, student of department of chemistry should know about the renewable energy.

On 13 April 2022 the Department of Chemistry organized one day workshop on Renewable Energy. The workshop started with the introduction of the chief guest and giving water to plant. The Prof. P. B. Tatale gives the introduction of our chief guest.

The chief guest Miss Mali. S.U. tells importance of saving energy and how to renewable the energy. Nowadays the energy source become negligible. So we need to renewable energy.

The Prof P. B. Tatale also tells the student the importance of Renewable Energy. Finally Prof. Sutar. S. S. ended the workshop.
