Report

On 04 April 2022 faculty of science had arranged the wallpaper publication in our Vitthalrao Patil Mahavidyalaya Kale. The programme was inaugurated by Principle K.N.Rakshase, Dr.Nitin Patil, IQAC Co-ordinator Dr.Shardul Selukar in the presence of teaching, non teaching staff and all students of science faculty.

Our department of chemistry Vitthalrao Patil Mahavidyalaya Kale organized wallpaper publication. Students prepared their wallpaper on various subject on chemistry. Wallpapers were based on chemistry and every day chemistry.

Students prepare wallpaper on deficiency of major elements can lead to nutritional disorder, and their presence in excess can cause obesity. Deficiencies or excess states of semi major elements often result in water and electrolyte abnormalities. Some of the students prepare wallpaper on purified water will prevent you and your family from contracting this dangerous disease and keep you healthy.

It was useful and successful celebration of chemistry and every day chemistry which was appreciated by everyone.
