CERTIFICATE COURSE IN SOAP AND DETERGENT MAKING

INTRODUCTION:

Vitthalrao Patil Mahavidyalaya, Kale Department of Chemistry inaugurated the certificate course of soap and detergent making. Castor oil is used as a source of vegetable oils which, on reaction with warm concentrated alkali, form soaps. The vegetable oils in castor oil also contain hydroxy-groups ($-OH$) which will react readily with concentrated sulfuric acid, forming a long chain molecule with an ionic sulfonate group on the end. Such molecules behave as detergents.

In this experiment, students use sodium hydroxide or sulfuric acid to make their own soap or detergent. Only small quantities of reagents are required, reducing the risks associated with the use of such hazardous reagents.

Both procedures are suitable for reliable students, able to handle concentrated acids and alkalis responsibly, safely and with sufficient skill. The experiments will take about 45 minutes.

PROGRAMME DURATION:

Minimum duration to complete this program is 02 months.

Intake Capacity: 40 Students

REGISTRATION:

The registration date for this program is start by the first week of first semester of college.

OBJECTIVES:

The soap production process aims to achieve the most natural product possible with valuable properties and is based upon the cold method. This consists of mixing oil at the lower temperature. It is a simple yet time consuming process. Natural soap production is based on vegetable or animal fat.

PROGRAMME/SYLLABUS

Duration	Activities
First and Second Week	Saponification of Soap
Third and Fourth Week	Neutralization of Soap
Fifth and Sixth Week	Anionic surfactants
Seventh and Eighth Week	Non ionic surfactants

Soap and detergents have similar function but they do differ in chemistry and performance. With the help of the experiments performed in class or lab, students will be able to analyse the similarity and differences in the properties of soap and detergents, which can be done by analyzing foaming ability, testing pH, fat emulsification

Certificate Course in Fitness Training

INTRODUCTION:

Health & Fitness Science is still in an infant stage in our country. But it has proved to be of vital importance for enhancing athletic performance as well as individual fitness irrespective of health barriers in scientific manner. The course includes theoretical and practical knowledge of Health, Anatomy, Physiology, Fitness, Medicine, Nutrition and Psychology which influences decision regarding improvement of fitness and performance level of athletes. It also renders its influence on the activity level and fitness of individuals of all ages. The Certificate Course in Personal Fitness Training (CCPFT) offers knowledge and Skills including varied means of promoting the same on individual basis.

Course Duration:

Minimum duration to complete this program is 02 months.

Intake Capacity : 50 Students (First in first come basis)

REGISTRATION:

The registration date for this programme is start by the first week of first semester of the college

OBJECTIVES:

1. To prepare professionals in Personal Fitness Training.
2. To enhance the quality of Physical Education Teachers through the value added course.
3. To understand the basic concept of Fitness Training
4. To enable the learner to understand the basic structure and function of human body.
5. To acquire the knowledge regarding effect of exercise on the body as a whole.
- 6 To understand the Biomechanical aspect of Exercise.
7. To study the posture related deformities and corrective exercises
8. To understand and learn practical aspects in exercise training
9. To acquire the knowledge pertaining to the legal issues and documentation
10. To study the principles of training related to exercise.
11. To study and learn the anthropometry and fitness related tests.
12. To study the basics of Nutrition, weight management and safety measures.
